**Megaminx Speedsolving Competition**

**Host:** WilliamStewart1

**Category:** Competitions

**Date:** October 10, 2021

**Start Time:** 12:00pm

**End Time:** 9:00pm

**Location:** Tyvola Senior Center

**Description:**

WCA sanctioned Megaminx speedsolving competition. Bring your megaminx and shoot for a new record whether it be a world record or a personal record!

Remember, megaminxes with raised corners for grip are against the rules as they provide an unfair advantage. Stickerless, black, and white megaminx colors are allowed. Good luck!

2. The only additional feature I added is a link to another website called [thecubicle.com](http://thecubicle.com) in the footer of my website. My website is about cubing, and [thecubicle.com](http://thecubicle.com) is the most popular cube store online, so I figured I would add in a link to look at or purchase cubes of any kind into the site since it is about a cubing club.
3. The prototyping of the website is fully complete.
4. The easiest part of this challenge was actually coming up with the brand. Cubing is a hobby of mine that not many people have ever heard of, so I had an idea for a unique and interesting branding for my website immediately. As for the challenging part of this website, I would say the CSS was the most challenging part. I have never been very good at CSS, and I haven't worked with it since early last semester. I had to relearn a large portion of CSS and work through various tutorials to refresh myself on CSS and what I could do with it.
